

Hi Kruti, not sure why my images aren't working when it's hosted on Github, there's a Demo Clip in my README.md file that shows it's working as it should. I've kept the final project very minimal as I was trying to catch up with the lessons.

Thank you!

Hi JJ,

Very well done for the project. Keep doing amazing work.

Below points can be improved.

- CSS and Javascript can be optimised for reoccurring use of code.

Wishing you all the best for future learning.

Thank you.

With Regards,
Kruti Patel
